Selecting the right publisher is one of the most important decisions an author will make. At Springer, we recognize that our authors are at the heart of what we do. This presentation is designed to introduce potential authors to the basics of publishing a book with Springer Nature. During the presentation we will look at:

The benefits of publishing a book;

How to publish a book with Springer;

Springer as a book publishing partner.

Springer is a leading global scientific, technical and medical publisher, providing researchers in academia, scientific institutions and corporate R&D departments with quality content through innovative information, products and services. Thousands of new reference works, monographs, briefs, proceedings, textbooks, and series are published every year:

Print books and eBooks: We publish more than 275,000 books available in print and online.

eBook collections: Largest collection of scholarly Science, Technology and Medicine (STM) and Humanities & Social Sciences (HSS) titles available today.

Book archives: 120,000+ scholarly book archives (CY pre-2005) from the renowned Springer and Palgrave Macmillan publishing brands.

Proceedings: Over 30,000 conference proceedings.

Reference Works: Access our living editions of reference works, across STM, humanities and the social sciences, continuously updated.

Textbooks: Over 8,500 textbooks supporting students from undergraduate to post-graduate, across in a broad range of topics.

Springer has a strong portfolio of STM eBook collections and archives, as well as a comprehensive range of hybrid and open access journals and books under the SpringerOpen imprint.
