

This directory contains an archive of all relevant material pertaining to the DTMF Detection Group(Fall 1995). This group was a part of EE_6773 Digital Signal Processing course offered by Dr. J. Picone. The members of the group were Jimmy H. Beard and Steven P. Given.

The directory structure should be self-explanatory. All code used by the group can be found in subdirectories of the code directory and all data used by the group can be found in the data directory. If you have any questions consult the readme files in each directory.
