Ever since Temple adopted the Microsoft email environment, we have been having trouble with email messages getting directed to your spam folder or lost.

You are going to get a lot of email from me this semester, and it is important you keep on top of things.

Here are some instructions on how to safelist our class listserv so email get through:

https://isip.piconepress.com/courses/temple/ece_1111/resources/tutorials/tips_ms_outlook_spam/20220114_spam_configuration.mp4

I am also now keeping a digest here:

https://isip.piconepress.com/courses/temple/ece_1111/email/

But either way, you are responsible for emails, so you need to be proactive about this and safelist this address.

—Joe

P.S. Some of you might have already missed some emails!
