Did I mention that we are going to use email a lot in this course?

Did I mention you are already behind schedule? 🙄

Until many of you get comfortable with email in this class (create a folder with my name or the course number, and store these emails there), I am keeping an archive here:

https://isip.piconepress.com/courses/temple/ece_1111/email/current/

Please review all these messages.

Google Groups keeps an archive, but you can only read messages in a threaded conversation mode, which is useless. Today I experimented with ways around it, but gave up.

The archive above is timestamped, so it will be easier to follow. Messages are stored in chronological order.
