

Subject: ECE 1111: Syllabus and Plagiarism Checker
From: Joseph Picone <picone@temple.edu>
Date: 1/16/23, 10:32 AM
To: ECE 1111 <temple_engineering_ece1111@googlegroups.com>

An updated course syllabus is here:

https://isip.piconepress.com/courses/temple/ece_1111/syllabus/current/

Please read this carefully. Everything you need to know about the operation of the course is in the syllabus. Errors made because you did not conform to the standards and requirements explained in the syllabus will result in a grade of zero.

Also, we use a fairly powerful plagiarism checker for your software in this class. Though we encourage you to work in teams, the code you submit for grading must be your own.

If you copy code from the Internet, make sure you refactor it (meaning reformat and rename variables) so that it is your own work. Otherwise, the plagiarism checker will catch it and you will receive a grade of zero for that assignment.

We will stress the aesthetics of code this semester as we get into our first lectures on programming.

-Joe
