Just for clarification I want to know if the course is online or in person because I am receiving zoom links.

ECE 1111 and ENGR 2011/2013 are in person. However, I sent all students calendar appointments with Zoom links. I know many of you use Canvas as your calendar manager, but for those who don't, you have a calendar invite.

I will broadcast and record lectures in Zoom. If for some reason you can't be in class, you can use the Zoom link to participate remotely.

However, as students will tell you, if attendance falls below 50% at the start of class, I have been know to give a very easy pop quiz that counts significantly towards your grade.
