This article:

https://www.msn.com/en-us/money/careersandeducation/a-google-software-engineer-who-was-initially-rejected-gives-3-pieces-of-advice-for-landing-a-coding-job/ar-AA1oJcYz?ocid=hpmsn&cvid=0c442058679c4684940e72b9cc999a5c&ei=29

actually has some good advice about how to secure a good software engineering job.

Many of you will ask how can I get a good internship next summer. The answer is you have to start
your search now, and do some of the things suggested in this article.

A lot of what we do in ECE 1111 is intended to prepare you for a job search.
