Another part of your professional development is to familiarize yourself with the IEEE (for ECE students):

https://www.ieee.org/membership/join/index.html

This is the primary professional organization for ECE students. We have a student chapter that will reach out to you soon if they haven't already.

We encourage you to join as students since it is never too early to become involved in the IEEE.

Here is a good discussion from students like yourselves about why it is important to join the IEEE:

https://www.quora.com/What-are-the-perks-of-being-a-student-member-of-IEEE

If you send me your IEEE student member number after you join, I will give 50 points of extra credit.
